**4. Type of Action**

- Resolution
- Ordinance 1<sup>st</sup> Reading
- Ordinance 2<sup>nd</sup> Reading
- Other \_\_\_\_\_

**5. Background**

On May 28, 2025, the Board approved Resolution No. 25-05-24, adopting the FY2026 annual budget and appropriating funds. The budget was based on the best available information at the time, as actual revenues and expenses are not known when the budget is developed. Therefore, during the fiscal year, TriMet may need to internally transfer appropriated funds as necessary to match revised expenditure requirements of various divisions.

ORS 294.463 regulates the transfer of appropriations within or between funds and requires such transfers to be approved by the Board. This Resolution will approve the internal transfer of appropriated funds in the total amount of \$31,943,200. Specifically, \$27,943,200

in appropriated general funds from TriMet’s Transportation, Transit System & Asset Support, Finance & Administrative Services, Labor Relations & Human Resources, and Engineering & Construction divisions, and \$4,000,000 from Contingency Program, will be reallocated to the Maintenance, Information Technology, and Safety & Security divisions as described below:

- 1) \$29,500,000 must be transferred to the Maintenance Division to support several key needs: exercising the option to purchase up to 56 additional Type 6 Light Rail Vehicles (\$15.2 million), a security fencing project (\$1.8 million), overhauls and component replacement parts for light rail vehicles (\$9.5 million), and anticipated increase in fuel cost (\$3.0 million).
- 2) \$1,572,000 must be transferred to the Information Technology Division to support the following needs: the Enterprise Resource Planning (ERP) project, the CCTV Stabilization project and three Capital Improvement Projects including telephone system replacement, MAX chargers and Uninterruptible Power Supply (UPS) replacement, and upgrading the TriMet Data Centers.
- 3) \$871,200 must be transferred to the Safety & Security Division to support the Vehicle Borne CCTV systems project.

All three budget transfers from the divisional and program appropriation are possible due to budget saving efforts implemented mid-year, projected underspend in capital projects due to change in project scope and timeline, and available contingency.

This Resolution would amend the FY2026 Adopted Budget as follows:

<b>Operating Program:</b>	<b>Existing Appropriation</b>	<b>Transfer In (Out)</b>	<b>Revised Appropriation</b>
Maintenance Division	\$258,368,714	\$29,500,000	\$287,868,714
Information Technology Division	\$49,574,661	\$1,572,000	\$51,146,661
Safety & Security Division	\$83,691,798	\$871,200	\$84,562,998
Transportation Division	\$365,002,350	\$(8,000,000)	\$357,002,350
Transit System & Asset Support Division	\$26,640,644	\$(1,772,000)	\$24,868,644
Finance & Administrative Services Division	\$45,549,383	\$(1,800,000)	\$43,749,383
Labor Relations & Human Resources Division	\$14,030,468	\$(500,000)	\$13,530,468
Engineering & Construction Division	\$67,334,164	\$(15,871,200)	\$51,462,964
Contingency Program	\$77,541,732	\$(4,000,000)	\$73,541,732
<b>Total Appropriation</b>	<b>\$987,733,914</b>	<b>\$0</b>	<b>\$987,733,914</b>

**6. Financial/Budget Impact**

These transfers are internal reallocations of funds already budgeted and will have no impact on TriMet’s approved FY2025-2026 budget. This action will move budget appropriations between eight divisions and the Contingency program.

**7. Impact if Not Approved**

If the Board chooses not to approve this Resolution, the District will not be able to proceed with the various projects and initiatives funded by these transfers.
